## Pine Tree Society

### DISCOVERING ABILITIES TOGETHER

Pine Tree Society helps Maine people with disabilities lead richer, more socially connected lives. We share a spirit of innovation and desire to discover new ways to break down barriers that many find insurmountable. It started as a bold new idea in 1936 and it continues every day.

*You may also benefit from:*

**Communication Pathways** offers comprehensive Assistive Technology (AT) and Augmentative Communication (AAC) services including on-site evaluations, ongoing consultations, funding development, as well as support, training and professional development.

**Case Management Services** for children of all ages with Autism Spectrum Disorders, developmental disabilities and mental retardation. Our team works closely with families and service providers to determine, locate and access services to benefit the child and family.

**Pine Tree Camp** offers a fully accessible residential summer camp experience for Maine children and adults with disabilities. Pine Tree Camp also offers **Camp Pine Cone**, a day camp at our Rome, Maine facility for children ages 5-12.

To learn more, visit our website [www.pinetreesociety.org](http://www.pinetreesociety.org) or call (207) 443-3341.

### About The Kids' Project

Adaptive equipment helps children with special needs become more actively involved in the world around them. Being more involved increases self-esteem, promotes a greater sense of self-worth and increases success at home, in school and in therapy settings. Adaptive equipment is essential, yet the high price of commercial equipment often makes it unaffordable.

The Kids' Project, a program of Pine Tree Society, provides affordable, high-quality adaptive equipment made with care by talented volunteer woodworkers and upholsterers. The Kids' Project adaptive equipment is comparable to top of the line items at 40-75% below commercial prices, providing more opportunities for greater success for children with special needs.

## Desktop Easel

Great for writing, drawing, painting and even reading, this therapy tool helps promote independence in handwriting, wrist extension, fine motor skills and hand development. It also promotes visual attending as well as proper positioning of the upper extremity. This item is constructed of quality Baltic birch plywood. The Desktop Easel includes a handy storage space.

**TKP17 Desktop Easel \$60.00**  
Dimensions: 20" x 12" x 9"

## Incline Board

Incline Boards are designed for use on desktops, tables or wheelchair trays. The boards are made of high-quality, durable Baltic birch plywood and feature a 15-degree angle. The front edge is designed to overlap a working surface, thereby reducing slippage. The large incline board is designed to fit a standard size desk and is suitable for any child who would benefit from a larger work area.

**TKP03 Small Incline Board \$40.00**  
Dimensions: 12" x 16" x 5 1/2"

**TKP02 Medium Incline Board \$45.00**  
Dimensions: 16" x 18" x 5 1/2"

**TKP01 Large Incline Board \$50.00**  
Dimensions: 16" x 24" x 5 1/2"

## Adjustable Incline Board

With a turn of the knob, the work surface adjusts from a 15-degree to 35-degree angle. Designed for use on a desktop, table or wheelchair tray. The front edge is designed to overlap a working surface. Constructed of Baltic birch plywood.

**TKP33 Adjustable Incline Board \$70.00**  
Dimensions: 16" x 18" x 5 1/2"

# Classroom Equipment

## Lexan Easel

The Lexan Easel offers a clear, motivating vertical surface for one or two children to use for creative and tactile experiences such as finger painting or shaving cream fun. It can also be used as a communication board with stimulus pictures placed behind the clear surface to allow for eye gaze and point exercises. The easel is made of Lexan, a plexiglass-like product known for its durability and good functional qualities.

**TKP15**

**Lexan Easel**

**\$70.00**

Dimensions: 15" x 17"

## Adjustable Table

Our Adjustable Table provides a stable workspace that can be modified to meet the needs of a child in a wheelchair or adaptive seating. The table top angle and height are both adjustable to ensure a perfect fit for the child - now and in the future. This item is ideal for both home and classroom use.

Shown with table top in angled position

**TKP18**

**Adjustable Table**

**\$235.00**

**Optional Accessory**

**ACC05**

**Locking Casters**

**\$40.00**

Dimensions	
Table top	23 ½" x 32"
Distance between legs	27"
Width of cutout notch	16"
Overall height	18 ½" x 30 ½"

# Therapy Room Equipment

## Benches

Our versatile benches can be used as a seat for either a child or adult client during therapy activities. They are also frequently used as a low work surface or desk when a child is seated on the floor or on a low seat. Made of Baltic birch plywood, the benches come in three sizes that nest together for easy storage. Order individually or as a set.

<b>TKP13</b>	<b>Extra Small Bench</b> Dimensions: 24" x 12" x 4"	<b>\$35.00</b>
<b>TKP12</b>	<b>Small Bench</b> Dimensions: 26" x 12" x 8"	<b>\$40.00</b>
<b>TKP11</b>	<b>Medium Bench</b> Dimensions: 28" x 12" x 10"	<b>\$45.00</b>
<b>TKP10</b>	<b>Large Bench</b> Dimensions: 30" x 12" x 12"	<b>\$50.00</b>
<b>TKP14</b>	<b>Set of four</b>	<b>\$150.00</b>

Pictured as a three bench set.  
Now available in four sizes.

## Adjustable Height Therapy Benches

This sturdy, well-made bench features an upholstered top. Appropriate for use with children with good trunk control. Available in small and large sizes.

<b>TKP31</b>	<b>Sm. Adjustable Therapy Bench</b> Dimensions: 11" x 26"; 6" - 10"	<b>\$100.00</b>
<b>TKP32</b>	<b>Lg. Adjustable Therapy Bench</b> Dimensions: 14" x 31"; 10" - 17"	<b>\$120.00</b>

## Nesting Stepstools

The Kids' Project's set of four wooden Nesting Stepstools are coated with a slip resistant surface. Ideal for crawling, stepping or climbing activities. Perfect for home or therapy use.

<b>TKP39</b>	<b>Nesting Stepstools</b>	<b>\$190.00</b>
--------------	---------------------------	-----------------

Dimensions: 10" x 14" x 2"; 16" x 12" x 4";  
18" x 14" x 6"; 20" x 16" x 8"

# Therapy Room Equipment

## Balance Beam

The balance beam is a proven tool in promoting dynamic balance and bilateral coordination. Crafted of high-quality Baltic birch plywood, this product can be used directly on the floor or raised to two different positions with the brackets provided.

**TKP07 Balance Beam \$60.00**  
Dimensions: 60" x 4" x 2"

## Folding Balance Beam

Perfect for the therapist on the road or a smaller multi-purpose room. The Folding Balance Beam is a proven tool in promoting dynamic balance and bilateral coordination. It can be configured in a variety of patterns to vary the level of difficulty. The Folding Balance Beam is crafted of high-quality Baltic birch plywood. Not intended for use by children weighing more than 150 pounds.

Shown folded

**TKP08 Folding Balance Beam \$85.00**  
Dimensions: 48" x 6" x 5" (folded), 135" x 6" x 2" - 5" (unfolded)

## Standing Wedge

When using proper foot alignment, the Standing Wedge is beneficial in stretching tight heel cords, thus maintaining flexibility. Our Standing Wedge is handcrafted from Baltic birch plywood, features a 15-degree angle (degree of angle can be specified when ordering) and has a non-skid top surface. It is recommended for pediatric and adult clients with neurological involvement and should be used in consultation with a physical therapist.

**TKP09 Standing Wedge \$35.00** Dimensions: 13" x 12" x 5"

# Therapy Room Equipment

## Rocker Board

Coated with a slip-resistant surface, this simple platform helps to improve balance by rocking back and forth. Generous platform size accommodates a standing or seated child. Designed with a gentle motion to prevent seated children from pinching their fingers.

TKP34

**Rocker Board**

**\$45.00**

Dimensions: 18" x 18"

## Wobble Board

Like the Rocker Board, the Wobble Board offers a slip-resistant surface and generous platform size to accommodate a standing or seated child. Designed with a gentle motion to prevent seated children from pinching their fingers. The Wobble Board rocks in all directions to help develop balance control in a complete range of motion.

TKP38

**Wobble Board**

**\$45.00**

Dimensions: 18" x 18"

## T-Stool

These one-legged stools are used to improve balance, coordination and attending skills. Therapists who have had children use these stools have been impressed with the almost immediate improvement in the child's posture and attention span. Height measurement is from the floor to seat top.

TKP04

**12" T-Stool**

**\$25.00**

Dimensions: 10" x 5 1/4" x 12"

TKP05

**15" T-Stool**

**\$28.00**

Dimensions: 10" x 5 1/4" x 15"

TKP06

**T-Stool**

**\$35.00**

**with interchangeable legs**

*"I recently purchased a T-Stool for one of my more challenging students. I can't tell you how excited his classroom teacher is about the immediate results she has seen with his ability to attend and participate in class."*

# Therapy Room Equipment

## Platform with Removable Ramp

A great addition to therapy rooms, it is especially handy in small places for sensory motor activities like Scooter Board use. The platform is stationary in height. Both ramp and platform are constructed of Baltic birch plywood with safety rims on open, elevated edges.

**TKP16 Platform w/Removable Ramp \$265.00**

Dimensions: (ramp) 60" x 17 ¾"  
(platform) 19" x 27 ¼" x 17 ¾"

## Scooter Board

Our Scooter Boards are made of Baltic birch and feature smooth-moving casters. The Scooter Board can also be made to fit your dimension specifications.

**TKP21 Scooter Board**

**\$50.00**

Dimensions: 21" x 19"

## Rocking Boat/Stairs

This versatile item is a way to promote teamwork and provide exercise in a safe environment. Placed with rounded edge down, it is a rocking boat that promotes teamwork as well as sensory stimulation. Placed on the straight edge, it is a set of sturdy stairs ideal for development of gross motor skills through climbing and crawling.

**TKP19 Rocking Boat/Stairs**

**\$185.00**

Dimensions: 47" x 24" x 14"

# Seating and Positioning Equipment

## Seating and Positioning Optional Accessories

## Adjustable Corner Sitter

Sitting on the floor to play is part of being a child. For children with disabilities, sitting independently is often impossible. Our Adjustable Corner Sitter offers stability with an adjustable angle (0 to 25 degrees), seat and back pads, an adjustable pommel and optional accessories.

**TKP22 Corner Sitter (small) \$170.00\***

**TKP23 Corner Sitter (large) \$200.00\***

**\*Optional accessories include:** ACC03, ACC04, ACC17. Please see above for complete details and prices.

Dimensions	Small	Large
Overall height	18"	24"
Seat height from floor	2" - 4"	2" - 4"
Seat width	13 ½"	15 ½"
Height of back above seat	16"	22"
Seat depth	10 ½"	13"
Back to abduction block	4" - 7"	6 ½" - 9 ½"

Adjustable Corner Sitter pictured with Adjustable Tray. Learn more on page 9.

# Seating and Positioning Equipment

## Adjustable Tray

Extra large surface for work and play with adjustable height and angle for maximum versatility. A perfect companion for the Corner Sitter (page 7) and the Long Sitter (page 9).

### Dimensions

Table top surface	25" x 30"
Table top height	8" - 14"
Cut-out opening	20" x 8"

**TKP24 Adjustable Tray**

**\$150.00**

## Preschool Chair

Designed for younger children who need moderate support, the Preschool Chair features a wide base for stability, arm rests and adjustable height legs.

Dimensions	Standard	Large
Overall height	9" - 12"	11" - 14"
Seat width	10"	12"
Seat depth	10"	12"
Back height	10"	12"

**TKP35 Preschool Chair (standard) \$110.00\***

**TKP36 Preschool Chair (large) \$135.00\***

**\*Optional accessories include:** ACC01, ACC03, ACC04, ACC05, ACC06, ACC08, ACC09, ACC11, ACC12, ACC13, ACC14, ACC15, ACC17. Please see page 7 for complete details and prices.

## Adaptive Classroom Chair

The Adaptive Classroom Chair's simple, sturdy style featuring adjustable height legs, adjustable arm rests and seat depth makes it easy to modify for children with greater positioning needs.

Dimensions	Standard	Large
Seat height	14" - 18"	16" - 20"
Seat width	14"	17"
Seat depth	14"-15 ½"	15 ½"-17 ½"
Back height	15"	16 ½"

**TKP26 Classroom Chair (standard) \$285.00\***

**TKP25 Classroom Chair (large) \$310.00\***

**\*Optional accessories include:** ACC02, ACC03, ACC04, ACC05, ACC07, ACC08, ACC10, ACC11, ACC12, ACC13, ACC15, ACC17. Please see page 7 for complete details and prices.

# Seating and Positioning Equipment

## Multi-Chair

This hardwood chair adjusts for growth with a wide base for stability, seat depth adjustment and an adjustable seat back angle. Base price includes seat and back pads, adjustable armrests and adjustable skis.

<b>TKP30</b>	<b>Multi-Chair (preschool)</b>	<b>\$275.00*</b>
<b>TKP29</b>	<b>Multi-Chair (standard)</b>	<b>\$325.00*</b>
<b>TKP28</b>	<b>Multi-Chair (large)</b>	<b>\$375.00*</b>

\*Optional accessories include: ACC03, ACC04, ACC05, ACC06, ACC07, ACC08, ACC09, ACC10, ACC11, ACC12, ACC13. Please see page 7 for complete details and prices.

Dimensions	Preschool	Standard	Large
Overall height (with skis)	11" - 16"	13" - 19"	16" - 22"
Seat width	11"	13"	16"
Seat depth	11" - 13"	11 ½"-13"	14 ½"-16 ½"
Back height	11"	13"	16"

## Long Sitter with Abductor, Knee Straps

Designed by a local physical therapist, the Long Sitter is effective for children with hamstring spasticity or tightness. The seat angle is adjustable, allowing the therapist to adjust the level of stretch without compromising back posture. At the highest setting, this accommodates tight muscles and as hamstrings gain flexibility, the seat can be gradually lowered. The stretch is maintained with knee straps, while an abductor prevents the child's legs from crossing. This item should be used in consultation with a physical therapist. Includes seat and back pads

**Recommended accessory:**  
**ACC17 Pelvic Strap \$25.00**

This unique design holds the pelvis in place, maintaining an upright posture and pelvic position. Available in three sizes.

Small Dimensions: Rise: 8"  
Waist Circumference: 14" - 23"

Medium Dimensions: Rise: 10"  
Waist Circumference: 18" - 26"

Large Dimensions: Rise: 11"  
Waist Circumference: 20" - 30"

Dimensions	
Seat width	20"
Seat depth	22"
Seat adjusts	6", 0-20 degrees
Back height	24"
Back to abduction block	8 ½" - 11"
Abductor	11" length x 7" tall" width tapers 3" - 6"

**TKP27 Long Sitter \$195.00\***

\*Optional accessories include: ACC17. Please see page 7 for complete details and prices.

# Seating and Positioning Equipment

## Adaptive Rocking Horse

All the fun of a rocking horse with extra support! Features include adjustable seat height and depth as well as a built-in footrest and adjustable pommel.

Dimensions	
Seat height	7 ½" x 9 ½"
Seat width	12"
Seat depth	12"
Back height	19 ½"

**TKP37 Adaptive Rocking Horse \$265.00\***

**\*Optional accessories include:** ACC01, ACC02, ACC03, ACC10, ACC11, ACC12, ACC13, ACC14. Please see page 7 for complete details and prices.

## Changing Table

Featuring a 2" lip on three sides, slots for a safety strap and two adjustable height shelves, our Changing Table provides a convenient, clean and safe surface to change children's clothes or diapers. The table has solid, sturdy legs for extra stability. Additional sizes and features may be special ordered. Simple assembly required.

Dimensions	
Length	48"
Width	24"
Height	32"

**TKP47 Changing Table \$255.00\***

**\*Optional accessories include:** ACC01, ACC02, ACC16. Please see page 7 for complete details and prices.

## Foot Stool

The Foot Stool improves posture and increases optimum positioning. The use of the Foot Stool in the classroom has helped children be more comfortable when sitting at a table or desk. Additional sizes may be special ordered.

**TKP20 Foot Stool \$25.00**  
Dimensions: 17 ½" x 9" x 5 ½"

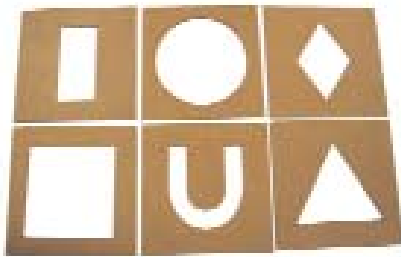

# Adaptive Toys

## Feel and Guess Box

This wooden activity box helps increase tactile perception. The child can reach through the cloth to touch and guess, but not see what's inside.

**TKP40**      **Feel and Guess Box**      **\$35.00**  
Dimensions: 15" x 6" x 9½"

## Shape Stencils

These easy to use, durable stencils teach shape drawing. The set of six features a square, triangle, circle, diamond, U-shape and rectangle.

**TKP42**      **Shape Stencils**      **\$15.00**  
Dimensions: 8" x 8"

## Shape Puzzle Board

This toy teaches sorting skills, features easy to grasp handles on each shape and doubles as stencils.

**TKP43**      **Shape Puzzle Board**      **\$18.00**  
Dimensions: 16" x 6"

## Shape Puzzle Box

This box consists of three layers of progressively smaller wooden shapes with easy to grasp handles.

**TKP44**      **Shape Puzzle Box**      **\$30.00**  
Dimensions: 5 ½" x 5"

## Shape Grab Bag

With 18 wooden shapes, children of all abilities can participate in building games that promote creativity and develop motor skills. Blocks are in sets of two for shape matching games.

**TKP41**      **Shape Grab Bag**      **\$15.00**

## Stacking Pyramids

The Square Stacking Pyramid features a central pillar in a pyramid shape and blocks with progressively bigger holes, ensuring that they're stacked in order. The Round Stacking Pyramid features a circular central dowel, allowing children to stack blocks in any order.

**TKP45**      **Square Stacking Pyramid**      **\$15.00**  
**TKP46**      **Round Stacking Pyramid**      **\$15.00**  
Dimensions: 6" x 4"

## The Kids' Project meets unique needs at an affordable price

Whether you would like to adapt a standard item or have a unique item in mind, The Kids' Project would be happy to work with you to create a piece of adaptive equipment that will fit your child's specific needs at an affordable price.

A custom designed piece of equipment developed in collaboration with your child's physical and/or occupational therapist will provide the most appropriate fit for your child. Since The Kids' Project volunteers donate their time, we are able to offer high-quality wooden adaptive equipment at prices that are far below those which are available commercially.

The Kids' Project can build a wide variety of adaptive furniture and equipment including:

- Adaptive furniture, including chairs and beds
- Vertical, prone and supine standers
- Hard to find equipment built to specifications
- Affordable alternatives to commercial equipment
- Adaptive playground equipment

## The Kids' Project makes ordering custom equipment simple

Each custom order begins with an initial phone consultation to determine if The Kids' Project is the best resource to meet the child's needs.

Following the initial phone consultation, The Kids' Project will send a custom-order packet that will walk you through gathering the necessary information.

Once the completed packet has been returned to us, The Kids' Project will create design sketches, calculate a price estimate and determine a timeline for the project. (Please note that most prescriptive items take 6-8 weeks to complete.)

During this stage, The Kids' Project may need to consult with the child's physical and/or occupational therapist to ensure that the equipment will meet the child's unique needs. After approval from the child's therapist, the project will be assigned to an experienced volunteer.

The Kids' Project will continue to communicate with you throughout the design and construction process to ensure your satisfaction with the finished product.

Custom Corner Chair

Accessible Lobster Boat  
Playground Equipment

Custom Therapeutic Chair

Custom Stepstool

It is beautiful!  
It is exactly what  
we needed.

When you place an order with The Kids' Project, you have the security of working with Pine Tree Society, a non-profit organization dedicated to meeting the needs of people with disabilities since 1936. Visit [www.pinetreesociety.org](http://www.pinetreesociety.org) to learn more.
