A message from our CEO & 2017 Financials

Dear Friends,

I am pleased to share this report of Pine Tree Society's impact with you. As you read through this piece, I hope it brings to life the transformation our team makes in the lives of children and adults with disabilities and their families each day throughout Maine. We often talk about our work as discovering abilities together. I think we actually take it a step beyond that. We do more than discover abilities. Again and again, I have seen our team help people with disabilities discover lives of passion and purpose. You are part of that team. On behalf of the thousands of individuals and families we work with each year, I thank you.

Noel J. Sullivan
President & CEO, Pine Tree Society

"I'm going to big school"

Pine Tree Society is wishing good luck to the 16 children graduating to kindergarten from our Early Learning Center this August!

The Early Learning Center provides educational programming for young children with special needs. The staff has a common goal for all the students: to foster a love of learning to set a strong foundation for the future.

For Rachel, the Early Learning Center provides a structure for her five-year-old son Silas. "He always does better when goes to class," she said. "They do things I don't know how to do with him and have given me the tools I need at home to help Silas communicate."

Silas still has one more year with us before he moves on to "big school".

We are so thankful to everyone who helps us impact the lives of children and adults with disabilities throughout Maine each day.

Please let me know if you have any questions.

Sincerely,

Stevie Bonnevie
Marketing Associate
