TIE DYE

STEP 1 - MATERIALS
Gather your materials.

STEP 2
Soak your shirt in water and soda ash for 20 minutes, then wring it out.

STEP 3
Set up your area by laying down newspaper or a garbage bag.

STEP 4
Put gloves on to protect your hands from the dye.

STEP 5
Put one prepared package of dry dye into the squirt bottle with 1/2 cup of water.

STEP 6
Shake the bottle to mix up the dye.
TIE DYE

STEP 7
Lay out your shirt on a flat surface.

STEP 8
Tie your rubber bands onto your shirt where you want to put dye. Look at the Pine Tree Camp video or the photos at the end of this for inspiration.

STEP 9
Apply dye, making sure you get in all the folds and white areas of your shirt.

STEP 10
Once you are done dyeing your shirt, place it in a plastic bag.

STEP 11
Close bag and let sit for 12-24 hours.

STEP 12
Wait 12-24 hours!
STEP 13  
Put gloves on to get your shirt out of your bag.

STEP 14  
Rinse your shirt under cold water until the water runs clear.

STEP 15  
Wash your shirt in the washer with no other clothes.

STEP 16  
Let your shirt air dry or put it in the dryer to dry.

STEP 17

SOME TIE DYE IDEAS...

SWIRL
Start with your shirt flat, then swirl from middle with your finger or a fork to create a circle. Wrap rubber bands around entire "circle" of shirt.

DIP DYE
Mix water and dye into a bowl and dip your entire shirt - or half of your shirt - into the bowl.

DOTS
Randomly gather sections on your shirt and tie with rubber band.

CRUMPLE
Instead of using rubber bands, you can squeeze your dye over a flat or crumpled up shirt!

STRIPES
Roll up your shirt vertically and tie off sections to create a striped pattern.

ENJOY!
